

# Bucket Rubber Cutting Edges

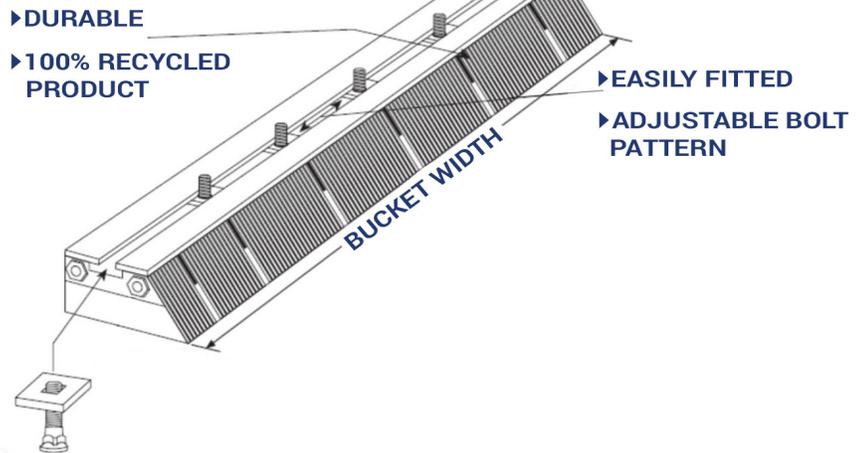

## SAVE YOUR CONCRETE FLOORS!

Rubber wear edges are ideally used in **Transfer Stations, Recycling Facilities** and **Waste-to-Energy Plants** for the main reason TO PROLONG THE WEAR LIFE OF THE CONCRETE TIPPING FLOOR. The cost of repairing and/or replacing a tipping floor not only puts a strain on the maintenance budget but the operational downtime associated with the repairs can be immense in both time and monetary.

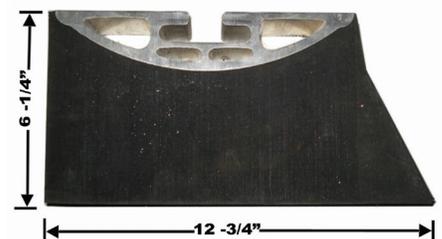

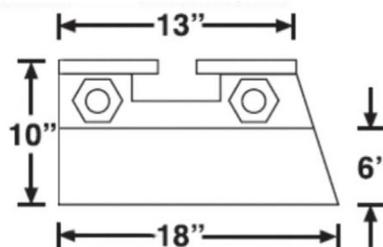

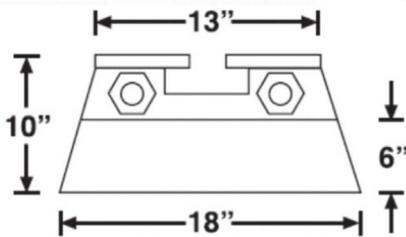

Benefits:

- ✓ Reduce sparking and fire hazard
- ✓ Shock absorbing
- ✓ Noise reduction
- ✓ Squeegee effect
- ✓ Protects the bucket
- ✓ Long Term cost effective
- ✓ Universal Mounting Track

Material: steel belted bus and truck tires or solid rubber
