

ACR Model Magna - Patch Wear Plate Retaining System

Magna-Patch™ is a reusable magnetically fastened polymer patch that provides cost effective instant repair to steel equipment. This highly visible product is a quick and secure means of repairing holes in steel pipes, elbows, silos, chutes, bins, hoppers and other steel equipment subjected to abrasion. Magna-Patch™ products also work well for emergency response and spill containment as well as for emergency repairs in steel hulled marine vessels.

Benefits include:

- ✓ Easy application and installation
- ✓ Maintenance free
- ✓ Reusable
- ✓ Abrasion resistant

Details

- MP-611 (mini)
For use on smaller diameter piping and radi surfaces, or hard to reach areas
- MP-711
For use on larger steel surfaces such as bins and hoppers, chute bottoms and troughs or similar
- MP-811
For use on larger diameter piping and radi surfaces, or trough holes in corner or odd shaped steel parts or equipment
